## OVERVIEW

The JSEP studies at the ElectroScience Laboratory continue to focus on Electromagnetics and Electromagnetics related subjects. The emphasis of this program was highlighted during our Major Review when all JSEP schools with an Electromagnetic component also presented their own activities in this discipline. In addition there were presentations by A. Jordan (Navy), F. Schwering (Army) and R. Mallioux (Air Force). The meeting was attended by 44 DoD personnel and was considered to be successful by all attendees. It is expected that this format for the Major Review will continue in the future.

During the third year of our program we have added Prof. R. Lee who replaced Prof. J.H. Richmond (deceased). Prof. Lee is the second young researcher who has been added to our JSEP unit in recent years, the first being Prof. R-C. Chou. Prof. Lee's expertise lies in the general area of Finite Difference/Finite Element Solutions.

Research this past three years has involved Diffraction Studies, Integral Equation Studies, Hybrid Studies and Adaptive Array/Packet Radio.

R.G. Rojas received the 1990 Browder J. Thompson Memorial Prize Award, for the best paper in any IEEE publication for an author under the age of thirty, for the paper, "Wiener-Hopf Analysis of the EM Diffraction by an Impedance Discontinuity in a Planar Surface and by an Impedance Half-Plane," *IEEE Transactions on Antennas and Propagation*, Vol. AP-36, January 1988, pp. 71-83.

The Diffraction and Hybrid Studies work units have been recognized in yet another manner in that Prof. Pathak has given 10 invited papers/lectures during this past contract period. He is also a Distinguished Lecturer for the Antenna and Propagation Society of the Institute of Electronics and Electrical Engineers for the 1990-1993 term and has presented seven lectures under this program.

There have been 42 archival journal papers published in this contract period. An additional 13 such papers have been accepted, 10 such papers have been submitted and another 9 papers are in preparation. Also a substantial number of oral papers have been presented at national/international symposia.

## **LISTING OF PRINCIPAL INVESTIGATORS**

**1988 - 1991**

1. Professor R-C. Chou
2. Dr. C.W. Chuang
3. Professor R.T. Compton
4. Professor R.G. Kouyoumjian
5. Professor R. Lee
6. Professor E.H. Newman
7. Professor P.H. Pathak
8. Professor J.H. Richmond
9. Dr. R.G. Rojas

## **DEGREES AWARDED**

Over the past 3 years with the support of JSEP, 5 students have been granted the M.Sc. degree and 6 students have been granted the Ph.D. degree in Electrical Engineering. The following list tabulates these students and gives the date of their graduation.

### **Master of Science Degrees**

F. Vook	Autumn	1988
H.C. Ly	Winter	1989
C. Olen	Summer	1989
M. Peters	Winter	1990
P. Munk	Winter	1991

### **Doctor of Philosophy Degrees**

R.J. Burkholder	Spring	1989
J. Choi	Summer	1989
J. Ward	Summer	1990
K.C. Hill	Summer	1990
M. Kluskens	Spring	1991
J. Blanchard	Autumn	1991
